Ice Made with Gas.

A Canadian living at International Bridge, Ont., makes a remarkable announcement. He has discovered a method of making artificial ice by the use of common illuminating gas. After use the gas may be returned to the mains uninjured as far as its illuminating qualities are concerned, not being deteriorated in the least. Experiments made at the gas plant at International Bridge gave a temperature of 80 degs. below zero-this with the use of gas and water alone, no chemicals of any kind having been added to the solution .- St.

HE TELLS A REMARKABLE STORY OF HIS LIFE.

CAME TO DETROIT ABOUT FORTY YEARS AGO.

Levi Elsey's Experience Worthy Serious viewing the recent eclipse, and when the Attention.

(From the Detroit Evening News.) Away out Gratiot Avenue, far from the din and turmoil of the business centre, there are many attractive homes. The intersesting streets are wide, clean and shaded by large leaf-covered trees, and the people you meet are typical of industry, economy and honest toil. There are many pretty residences, but none more

inviting in its neatness and home-like comfort than that of Mr. Levi Elsey, the well-known builder and contractor, at 74 Moran street, just off Gratiot. Mr. 74 Moran street, just on Gratiot. Mr. Elsey is an old resident of Detroit, having moved here about forty years ago. He has erected hundreds of houses in different parts of the city, and points with pride to such buildings as the Newberry & McMullan and Campaw blocks in which he displayed his ability as a

One cold, blustering day I was down town and through my natural carelessness at that time I permitted to get chilled right through. When I arrived home that evening I felt a serious pain in my left leg. I bathed it that night but by morning I found it had grown worse. In fact, it was so serious that I sent for my family physician, and he informed me that I was suffering from varicose veins. My leg swelled up to double its natural size and the pain increased in volume. The agony was simply awful. I was laid up and never left my bed for eight weeks. and never left my bed for eight weeks. "About two years ago I noticed an article in the Eccning News about my friend, Mr. Northup, the Woodward Avenue merchant. In an interview with him he stated that he had used Dr. Williams' Pink Pills for Pale People and that they cured Lim. I knew him very well, having built his house out Wood-ward Ave., and I thought I would follow his suggestion. I must confess I did so with marvelous success. From the time I began to take the Pink Pills I felt myself growing to be a new man. They acted on me like a magical stimulant. The pain departed and I soon was as strong and healthy as ever. Before try-ing the Pink Pills I had used any amount of other medicine without any

The incident occurred on one of the railways between London and west of

As soon as I had conveniently disposed of my belongings in a compartment and wrapped myself in my rug, I proceeded leisurely to take a survey of my fellow travelers-a young man and a girl apparently traveling together.

The style of the young man did not please me. He looked "horsy." His attire was a great deal too "loud" for my taste, and on his little finger he wore a diamond ring-most probably a sham diamond, I decided. He was not ugly, but obtrusively big and strong looking. and I saw at once that he was in a very

The girl, on the contrary, pleased me extremely; she was exceedingly pretty, and she was daintily dressed and exquisitely refined looking. I was struck by the fact that she seemed to share my objection to her companion, for she avoided his attempts to catch her eye, keeping her face carefully averted from him, and when he spoke to her she answered in monosyllables, without looking around. I noticed also that her pretty, childish face bore signs of recent weeping and that now and then her blue eyes filled with tears. 1 even fancied that she cast plaintive glances in my direction, as though unconsciously seeking for help and succor.

With my usual quick sympathy I soon felt deeply interested in the lovely. innocent looking young creature, who was apparently in the power of the morose scoundrel beside her, and I began to consider what means I should adopt to make her understand that I comprehended her sorrow and desired to help her. No better idea suggested itself than to offer her my copy of Punch, which I did with a deferential bow and a look which I flattered myself would reveal my sentiments toward her. have always been told that I have a most expressive countenance.

She declined the paper, but her eyes met mine with an eloquent look, and I felt that I had established an understanding between us.

Then a brilliant idea occurred to me. I could not talk to the girl right under the eyes of the scowling villain beside her, but if I feigned sleep he might be thrown off his guard and disclose the situation to me. I forthwith gave sevportentous yawns; then leaning back in my corner I spread a handkerchief over my face so as to conceal my features, but not to prevent me from secing my companions, and after a little while commenced to snore.

By and by the ruse seemed successful, The young man, after several unavailing attempts to gain the girl's attention, took hold of the tiny gloved hand which had been lying listlessly in her lap, and as she still continued to look the other way suddenly bent his head and kissed it. 'How dare you?" she cried, hastily

drawing away her hand, while she turned and faced him. "How dare you touch me, even when you know-you know"- A flood of tears made the rest of the sentence inaudible.

The man looked at the girl with a half remorseful, half impatient expression. "Come, Evelyn," he said after a pause, "crying won't do any good. Forgive the young man kicked the candle into and forget," and he attempted to put his

> At this instant I saw our enemy approaching and moved hastily back to my seat, trying to look as though I had merely been awakened from my slumbers by the stoppage. As the train started again I subsided with sundry yawns into my former attitude.

I noticed that the girl gazed at me with a startled, perplexed expression. and I feared that the poor child's imprudence would attract the attention of her companion. I longed to make her a sign to be more cautions, but thought it better not to do so, and was considerably relieved when the young man unfolded his newspaper and became apparently absorbed in its contents.

Presently, to my amazement and horror, I saw the girl suddenly lay her hand upon the man's arm, put her lips close to his ear and proceed, as I felt certain, to inform him of my discovery and offer of assistance. The man, after listening to her with a look of blank incredulity, turned and glanced at me with the most vindictive malignity in his eyes. I could not hear the words with which he apparently reassured the girl; but one painfully significant sentence reached me-"I'll soon make short work of him!"

Here was a pleasing situation! I knew that the train would not stop for nearly an hour, and in the meantime I was shut in with and practically helpless in the hands of a cold blooded murderer, who, knowing me to be in possession of his secret, was scarcely likely to let me escape. The girl, in spite of her tears and protestations, was evidently completely under his influence and could not be relied on to aid me with even her feeble strength.

For a moment I contemplated a desperate leap from the carriage, but the prospect of almost certain death was too appalling. Then I thought of the communicator, but the railway authorities, with a fine perception of the fitness of things, had placed this last resource of the desperate outside and above the window of the carriage.

Suddenly an idea flashed through my mind. In a few minutes we should enter another short tunnel, and it was just possible that under cover of the noise and darkness I might succeed in grasping the cord communicating with the engine driver or the guard.

Putting my arm stealthily out of the window I pulled the cord with desperate force, sinking back into my seat just as we emerged from the tunnel, and then, with a thrill of intense relief, felt the train begin to slacken speed and gradually come to a standstill. The next moment the guard made his appearance, looking wildly round the compartment for signs of bloodshed or

"Mr. Murray!" he exclaimed, touching his cap deferently to my enemy. "Was it you who stopped the train,

"No," I gasped, half choking with fear and anger, "it was I! That man is a murderer, who has escaped justice, and he has threatened me with violence! My life is not safe, nor is that young lady's," I added, pointing to the girl, who was gazing at me with well feigned astonishment.

"Lor' bless you, sir," cried the guard, with a broad grin, "there must be some mistake! That's Mr. Murray and his good lady. Mr. Murray is one of our

"What has that to do with it?" I almost shricked. "What if he were fifty directors? I tell you the man is a mur derer and has threatened my life! Fetch a policeman!"

'Benson," cried the young man before the guard could answer, "put that old lunatic into another carriage. He has already been annoying my wife with his idiotic impertinence. He's evidently either intoxicated or as mad as a hatter!'

"Certainly, sir," responded the guard obsequiously. "Come, sir,"—to me, in a coaxing tone which nearly maddened me-"come into the next carriage. 1 can't keep the train waiting any longer, you know, and you can explain it all to the inspector when we stop. Yes-quite We knowsall about it; we quite understands how it 'appened." And be-fore I had realized the situation I found

Not in the least. The circumstances were "investigated," with the result that my would be assailant got off scot free, while I was fined five pounds for stopping the train without reasonable cause. He and his wife had the audacity to declare that the conversation I had overheard referred to a little spaniel belonging to the lady, which, having been bitten by a mad dog, had been poisoned by her husband against her wishes. In vain I pointed out the improbability of the story, and explained that my suspicions were based on the unerring evidence of physiognomy. The wretches took refuge in the unphilosophical conclusion that I must be "a little cracked," a statement which my enemies did not fail to supplement with the suggestion "Oh," cried Evelyn, looking at him that I must have been more than a little uncultivated intelligence can betray the unscientific. ### PUBLIC SPEAKING.

Is the mighty West, the land that "tickled with a hoe lauchs a harvest;" the El Dorado of the miner; the goal of the agricultural emigrant. While it teems with all the elements of wealth and prosperity, some of the fairest and most fruitful portions of it bear a harvest of malaria reaped in its fullness by those unprotected by a medicinal safeguard. No one seeking or dwelling in a maisrial locality is safe from the seourge without Hostetter's Stomach Blitters. Emigrants, bear this in mind. Commercial travelers sojourning in malarious regions should carry a bottle of the Bitters in the traditional gripsack. Against the effects of exposure, mental or bodily overwork, damp and unwholesome food or water, it is an infallible defense. Constipation, rheumatism, bilousness, dyspepsis, nervousness and loss of strength are all remedied by this genial restorative. This is one of the heaviest strains that comes upon any man or woman. A little cold, a little hoarseness, and the work is done. The best of ability is rendered absolutely useless.

Mark Guy Pearse, the eminent English oreacher, writes as follows:

It is an American Express company's envelope, but could it talk an interesting story might be gleaned from its yellow, blue and black surface. Along in 1888 John Fellmann awakened one morning in his narrow little room in a wyonin city and glanced out upon the sue-bright streets with sorrow in his heart. His finances were low and his prospects in life seemed bleak and drear. With many a sigh be donued his ciothing, packed his pitiably small wardrobe in a little grip and start d for the depot. The night before he had besleged his friences and acquaint-ances, but it was not until his last loved memeuno was sacrificed that he had money enough to pay his railro of fare to thicago. So hard had been this task of raising money that he even hypothecated a ticket on the oid Lousana State Lottery. Affairs looked doubly grim upon his arrival in Chicazo, and poor young Fellmann was even more despondent than he had been in Wyoming. One monning as he idly paced the busy streets he happened by the post office. Not with any great expectations, but more to break the monotony of the day, he stopped in and inquired for mail. To his surprise he found a letter awaiting him. Carolessiy he opened it, but as soon as he glanced at the opening lines his face hit up with eagerness. The letter was from the friend he had let the lottery ticket with and the news was that Fellmann had captured a part of a small prize.

The formalities were soon over and with a few hundred dollars of his own Fellmann opened a little saloon. Having once hece saved so opportunely from want, his faith became planed to the louisiana State Lottery. Fellmann invested in tickets in its successor, The Honduras National Lottery.
